Terminal Facilities and Services Corporation.

Our main task.

We provide berthing space for cargo vessels and we supply necessary cargo handling services.

Our history.

TEFASCO started operation in November 1977 in augmentation to the City Government's port in Sasa, which was experiencing berth congestion at the time. This was when lumber and other agricultural product exports were at their peak.

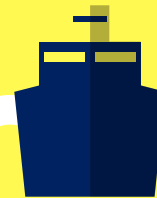

Our presently-handled

cargos.
Fertilizer, corn, soya bean meal, gypsum, salt, sugar, rice, cement, fruits, vegetables, containerized cargos.

Our space.

We harbour an overall berth space length of 550 meters that could simultaneously accommodate 4 to 5 vessels, depending on each of the vessel's lengths.

For easy movement of cargo and vessels, we host an open space of approx. 40,000m² and warehouses of more or less 3,000m².

Our times.

We operate 24/7 and observe only three holidays in a year:

New Year, Good Friday, and Christmas Day.

Our equipment.

- 2 SANY ship-to-shore gantry cranes (60 tons max.)
- 1 SANY Telescopic Shore Crane (130 tons max.)
- 190 reefer outlets
- 2 bulk unloaders (75 tons/hour/unit max.)
- 4 Reach Stackers
- 1 BOC's Cargo Scanner
- 1 Weigh Bridge (80 tons max.)
- 2 Transit Sheds (1,200m² max. each)
- 46 chambers of warehouses for rent w/ a total area of 49,980m²
- 8 trailers
